Snap-in Insulated Terminal Block

Ordering #: EF-1-1-1-1-1

IN STOCK

Compact Snap-In Design: 2- to 5-pole insulated terminal block for through-cabinet wiring

Ideal Applications: Perfect for blower motor speed controls and similar through-cabinet connections

Amp & Voltage Ratings: Rated for 20 amps, at 125 volts

Durable Base Material: Molded from UL 94V-0 rated polypropylene for heat resistance

Secure Mounting: Snaps into cabinets up to 0.042" thick for easy installation

**Polarity Assurance:** Maintains polarity using different-sized quick-connect tabs

EF-1-1-1-1-1 Specs
Voltage: 250V
Current: 20A
Wire Range: #14-22 AWG
Wire Type: Copper
